TECHNICAL INSTITUTES, SCHOOLS  
INVITE ENROLLMENT

UZBEKKS MAY ENROLL IN MOSCOW, Leningrad Institutes -- Pravda Tashkent, No 155,  
7 AUG 40

The following higher educational institutions of Moscow and Leningrad accept applications from students of Uzbek nationality: Moscow Electrical Engineering Institute of Communications, Moscow Institute of Nonferrous Metals and Gold imeni Kalinin, Moscow Higher Technical School imeni Bauman, Moscow Petroleum Institute imeni Academician I. M. Gubkin, Moscow Aeronautical Engineering Institute, Moscow Mechanics Institute, Moscow Machine-Building Institute imeni I. V. Stalin, Moscow Steel Institute imeni I. V. Stalin, Moscow Technological Institute of Light Industry, Moscow Order of Lenin State University imeni Lomonosov, Leningrad Polytechnical Institute imeni M. I. Kalinin, and Leningrad Finance and Economics Institute.

Applications will be accepted until 15 August 1949 in the Council of Ministers Uzbek SSR, by the Representative of the Ministry of Higher Education USSR, Room 23-A. Entrance examinations will be arranged in Tashkent. -- Advertisement

CHEMICAL-MACHINE INSTITUTE ENROLLS STUDENTS -- Sovetskaya Sibir', No 137. 13 Jul 49

The Moscow Institute of Chemical-Machine Building is registering students in the first-year course in the faculties of mechanics of inorganic production, mechanics of organic production, machine building, and power engineering. The institute trains mechanical engineers with a broad background in assembly, operation, design and production of machines, apparatus, and heat installations of the chemical industry.

Dormitory quarters will be provided for nonresident students on the basis of results of entrance examinations. Entrance requirements and regulations are similar to those of all higher technical institutions. Apply: Moscow, 66, ulitsa K. Marksa, 21/4. -- Advertisement

POWER INSTITUTE REGISTERS CORRESPONDENCE STUDENTS -- Sovetskaya Sibir', No 147, 27 Jul 49

The Siberian Affiliate of the All-Union Correspondence Power Engineering Institute is recruiting students in all courses in the faculties of heat power engineering, hydraulic power engineering, electric power engineering, electro-mechanics, electrophysics, and radio engineering. The institute accepts individuals of any age who have completed secondary or secondary technical education. Entrance examinations are required in Russian language, literature, mathematics, physics, chemistry, and a foreign language.

The institute is also registering students in the faculty for the advancement of graduate engineers. Address of the affiliate: Novosibirsk, 32, (Krivoshchekovo) Heat and Power Plant No 2, administration building. -- Advertisement

ODESSA TECH CONTINUES ENROLLMENT -- Pravda Ukrainy, No 186, 9 Aug 49

The Odessa Polytechnical Institute is continuing enrollment of students for first-year courses in the faculties of heat power, mechanics, applied chemistry, and electrical engineering.

Address of institute: Odessa, ulitsa Krasnoy Armii, 8. -- Advertisement

CORRESPONDENCE POLYTECH OPENS NOVOSIBIRSK BRANCH -- Sovetskaya Sibir', No 150, 31 Jul 49

The All-Union Correspondence Polytechnical Institute is registering students for the 1949 - 1950 school year in the first-year and senior courses in the following faculties: mining, metallurgy, industrial chemistry, machine building, power engineering, and construction.

The institute has organized a division in the city of Novosibirsk which offers regular night courses in all specialties for students who wish to continue working. Applications will be accepted by the division at the following address: Novosibirsk, Krasnyy prospekt, 50 (school No 42), second floor, room 11. -- Advertisement

TASHKENT TEXTILE INSTITUTE STARTS REGISTRATION -- Stalinskoye Znaniya, No 152, 5 Aug 49

The Tashkent Textile Institute of the Ministry of Higher Education USSR is admitting students to the first-year course in the mechanics, technology, and economic engineering faculties. The institute also announces the opening of registration in the new specialty which trains industrial engineers in primary processing of bast fiber crops (jute, amary hemp, Indian hemp, and Chinese bell flower).

Applications will be accepted until 20 September. Apply: Entrance Commission, Textile Institute, Tashkent, Sotsgorodok. -- Advertisement

SIBERIAN TIMBER INSTITUTE OPENS REGISTRATION -- Sovetskaya Sibir', No 138, 15 Jul 49

The Siberian Timber Engineering Institute of the Ministry of Higher Education USSR is registering students in the first-year course of the faculties of timber engineering, timber management, and the technology of mechanized wood processing. The timber engineering faculty trains industrial engineers with an extensive background in mechanization and electrification of logging, overland

timber transport, and floating; and mechanical engineers in the mechanization and electrification of logging and timber transport. The timber management faculty trains timber management engineers. The faculty of the technology of mechanized wood processing trains mechanical engineers in all fields of mechanized wood processing. Entrance requirements and regulations are similar to those of all higher educational institutions. Students in all faculties and courses will be exempt from military conscription.

Applications will be accepted until 31 July, and entrance examinations will begin 1 August. Stipends will be available to all students. In the senior courses, stipends will depend upon progress. Children of workers in enterprises and organizations of the timber industry are not subject to tuition fees.

The Institute includes the Siberian Division of the All-Union Correspondence Timber Engineering Institute which offers training in the same fields.

Apply: Siberian Timber Engineering Institute, Krasnoyarsk, prospekt imeni Stalina, 62. -- Advertisement

NOVOSIBIRSK TECHNICAL INSTITUTIONS GRADUATE 3,000 -- Sovetskaya Sibir', No 149, 30 Jul 49

Six higher educational institutions and 22 specialized secondary institutions in Novosibirsk have successfully completed the school year and have graduated nearly 3,000 young specialists. The medical institute graduated 400 doctors, 23 of whom received their diplomas with distinction and 33 of whom passed state examinations with distinction. The pedagogical institute graduated more than 200 students. The Institute of Engineers of Geodesy, Aerophotography, and Cartography has graduated 45 engineers who will work in Siberia, the North, or Central Asia. Among these graduates, 75 percent received grades of excellent or good.

The specialized secondary institutions have graduated more than 1,500 specialists this year, including 33 from the machine-tool building technical school and 49 from the precision mechanics and optics technical school.

ADMIT NEW STUDENTS -- Sovetskaya Sibir', No 151, 2 Aug 49

Two hundred persons have passed the Russian-language entrance examination at the Novosibirsk Medical Institute, the entrance commission of which has received more than 500 applications. Two groups (60 persons) of applicants to the construction engineering institute have taken the Russian-language and mathematics entrance examinations. The industrial technical school has received 120 applications for 90 vacancies. Some of the applicants have already taken the Russian-language examination.

PRECISION MECHANICS SCHOOL ENROLLS STUDENTS -- Sovetskaya Sibir', No 136, 12 Jul 49

The Novosibirsk Technical School of Precision Mechanics and Optics is registering students in the first-year and third-year courses. The school has a 4-year study course and trains mechanical technicians in metal cutting, mechanical technicians in the production and designing of optomechanical instruments, and radio technicians. Stipends will be provided to all students who make good marks, while outstanding students will receive 25 percent additional.

The first course is open to persons who have completed the seventh grade and who pass entrance examinations in mathematics, Russian language and literature, and the USSR constitution. Outstanding students who completed seventh grade no earlier than 1948 will be exempt from examinations. The third-year course is open to those who have completed the 10th grade, with entrance examinations required only for those graduating earlier than 1948. Apply: Novosibirsk, ulitsa Kirova, 58, second entrance, third floor. -- Advertisement

TOMSK TECH OPENS REGISTRATION -- Sovetskaya Sibir', No 151, 2 Aug 49

The Tomsk Machine-Building Technical School, Ministry of the Automobile and Tractor Industry USSR, is registering students in its first-year and senior courses. The school trains industrial technicians in cold treatment of metals and industrial technicians in tool production. The training period in the division for nonworking students is 4 years, and 4 years 6 months in the division for working students. For those who have completed the tenth grade, the training period will be 2 years 6 months in the division for nonworking students. Dormitory quarters will be provided for all students. Address: Tomsk-P, Severnyy gorodok, 2, room 2. -- Advertisement
